VOYAGE OF DISCOVERY:

WONDERS OF THE

GALÁPAGOS ISLANDS

aboard the Exclusively Chartered

SANTA CRUZ II

February 12 to 20, 2018
Dear Western Alumni and Friends:

Join like-minded travellers on this incredible opportunity to explore the UNESCO World Heritage-designated Galapagos Islands. Charles Darwin keenly observed: “The natural history of this archipelago is very remarkable … the greater number of its inhabitants, both vegetable and animal, being found nowhere else.”

Cruise aboard the recently refitted first-class exploration vessel Santa Cruz II, designed specifically to navigate remote archipelagos such as these. The ship is fully equipped to make your Galápagos experience complete, from complimentary snorkelling gear to a fleet of Zodiacs and a glass-bottom boat. Certified onboard naturalists lead excursions and share their knowledge to enhance your understanding and enjoyment of this captivating and mysterious natural realm.

These islands, each with its own ecosystem, are teeming with vibrant flora, fascinating fauna and species unknown anywhere else in the world, like the flightless cormorant and the marine iguana. With few natural predators on the islands, the abundant wildlife is nearly fearless and innocently receptive to up-close human company, unlike any other place on our planet! Here, you can almost touch spiny-backed iguanas and snorkel alongside playful seals and tropical penguins.

On mainland Ecuador, explore picturesque Quito, a UNESCO World Heritage site known for magnificent colonial churches with opulent gold interiors; walk through the historic Old Town; and straddle the Equator with one foot in either hemisphere.

To complement your Galápagos Islands cruise, we are pleased to offer an exclusive Pre-Tour Option to Mashpi, a protected reserve of rainforest and cloud forest abundant with wildlife found nowhere else on Earth, and a Post-Tour Option to experience the marvels of the UNESCO World Heritage site of the legendary “lost city” of Machu Picchu and the breathtaking Sacred Valley.

This once-in-a-lifetime travel program through the “Islands of the Tortoises” is an exceptional value and always a fast sellout, so reserve your place now as space is limited and Early Booking Savings are only available through June 9, 2017!

Sincerely,

Susan Henderson, BMusA’77

Amazingly, this remote volcanic archipelago, consisting of islands and islets located 965 kilometres off the coast of Ecuador, inspired one of the most revolutionary theories in the history of science. Formed millions of years ago by volcanic eruptions, the Galápagos Islands’ dramatic landscapes now make safe homes for the quirky finches and primeval iguanas that inspired Charles Darwin’s theory of natural selection and evolution, which he presented in On The Origin of Species in 1859.

Scientists theorize that some Galápagos species were transported by birds or deposited by whalers and buccaneers. Others, like the Humboldt penguin, Chilean dolphin and South American sea lion, probably arrived by way of the Humboldt Current, a cold stream of ocean water flowing from the southern coast of Chile. This current makes the Galápagos the world’s only tropical region to support such species.

Darwin noted that life in the Galápagos Islands is comprised of mostly “aboriginal creations, found nowhere else,” which led him to hypothesize that the islands’ species survived by evolving over time independently from their continental cousins. Because natural predators failed to survive—possibly due to the lack of fresh water, which deterred even permanent human settlement until the 20th century—a bevy of birds and animals were able to thrive and adapt in a manner not possible in other habitats. This also explains why Galápagos species never developed a fear of humans and allow the near contact that makes your own personal experience on the islands so thrilling and unique.

The enigma of the
Galápagos Islands

“The Archipelago is a little world within itself...”
— Charles Darwin, The Voyage of the Beagle

Home City/Quito, Ecuador

Monday, Day 1
Fly to Quito, the highest capital city in the world at 2850 metres, and transfer to the HILTON COLÓN HOTEL. Surrounded by snowcapped peaks, yet only kilometres from the Equator, Quito, a UNESCO World Heritage site, is known for its magnificent Spanish colonial architecture and lively street life.

Quito

Tuesday, Day 2
Quito is a city of startling contrasts, where thousands of years of native South American traditions are interwoven with imported Catholicism, the Spanish language and European culture.

Quito
Wednesday, Day 3
This morning, visit the Equator and stand with one foot in each hemisphere in the “middle of the world,” where an 18th-century multinational expedition located zero degrees latitude and established an accurate measurement of the earth’s size for the first time. Step inside the 30-metre-tall monument to this endeavour for spectacular views of the surrounding mountains and tour the Ethnographic Museum, illustrating the diversity of Ecuador’s indigenous peoples.

The remainder of the day is at leisure to explore Quito at your own pace.

Quito/Baltra, Galápagos Islands/Santa Cruz
Thursday, Day 4
Fly to the small Galápagos island of Baltra and embark the SANTA CRUZ II in time for lunch. Attend your first briefing by the ship’s English-speaking Ecuadorian naturalists while cruising to Santa Cruz Island.

Pristine white beaches, prickly pear cacti, vibrantly coloured flamingos and prehistoric-looking iguanas make Santa Cruz Island an essential stop during a cruise around the archipelago.

Aboard Zodiacs, explore the shores of beautiful mangrove-lined islets and seek out charming blue- and red-footed boobies, brown pelicans and magnificent frigatebirds, whose males puff up their bright red chests to impress potential mates. Make a dry landing in a small lagoon favoured by elegant pink flamingos, and ascend Dragon Hill for spectacular views of the western islands and the chance to observe land iguanas.

Attend the Captain’s Welcome Reception this evening.

Please note that the itinerary and cruise pattern are dependent on weather, sea conditions and Galápagos National Park Service regulations.

Isabela/Fernandina
Friday, Day 5
Cruise through the Bolivar Channel, showcasing stunning views of the volcanic peaks of Isabela and Fernandina. Spend the morning at seahorse-shaped Isabela Island, one of the younger Galápagos islands, formed by six shield volcanoes. On the island’s arid shore you may encounter the largest land iguanas in the Galápagos as well as giant tortoises and flightless cormorants.

The distinctive conical shape and steep slopes of the Galápagos Islands are a result of five million years of repeated volcanic activity that caused this chain of islands to emerge from the very bottom of the ocean floor.
Watch for the magnificent frigatebird, one of the many different species of birds living on the Galápagos Islands, doing its unique mating “dance.”

You may snorkel in the waters off Punta Vicente Roca or search the northern shores for blue-footed boobies, Darwin’s finches and penguins that inhabit the area.

Dominated by the sweeping slopes of La Cumbre Volcano, the moon-like landscapes of Fernandina Island are the most pristine and untouched of all the Galápagos Islands, home to the famous flightless cormorant, sea lions, marine iguanas, pelicans and penguins. Explore how recent volcanic activity has reshaped the island’s topography, creating an ever-changing environment for the thriving species found only in the Galápagos.

Santa Cruz
Saturday, Day 6
Visit the Charles Darwin Research Station to learn more about efforts to protect the island’s rare giant tortoises. Transfer to Santa Cruz’s cool, lush highlands for lunch amid mist-covered forests.

This afternoon, choose from a variety of leisure activities. Swim in the clear blue waters of secluded Tortuga Bay, home to black turtles, colourful reef fish, marine iguanas and lava gulls. Walk through the island’s trails or simply stroll along the sparkling white sandy beaches, the perfect avenues to experience Santa Cruz.

Post Office Bay, Floreana/Champion Islet/Cormorant Point
Sunday, Day 7
Floreana was one of the first islands in the archipelago to be settled by European whalers and buccaneers. At Post Office Bay, peruse the mail in the wooden barrel “post office,” established by whalers to transport letters home on passing ships. Discover a piece of mail to hand-deliver to its final destination, or leave a message to be delivered by a future visitor.

Snorkel or cruise via Zodiac in the clear waters surrounding pristine Champion Islet, encountering sea horses, sea turtles, sea lions, coral hawkfish and other aquatic wonders. Scan the skies and shorelines for possible sightings of the endemic Floreana mockingbird, common to the islands when Darwin visited, but critically endangered today. Walk along the brackish lagoons and mangroves near Cormorant Point, famous for the flamingos and pelicans that congregate here.

Attend the Captain’s Farewell Reception this evening.

Baltra/Guayaquil, Ecuador
Monday, Day 8
Dock at Baltra to disembark the ship and board your late-morning flight to Guayaquil. Enjoy a day room in the Hilton Colon Hotel. Depart late this evening for your home city, or continue on the Machu Picchu and the Sacred Valley Post-Tour Option.

Home City
Tuesday, Day 9
Arrive in your home city.

Observe the distinct creatures indigenous to the Galápagos Islands, like this land iguana, the same way Charles Darwin did more than 150 years ago.

Surveying the Ecuadorian Rainforest
Pre-Tour Option
Discover life “among the treetops” in the most unspoiled ecosystem on the planet, the Mashpi Rainforest Biodiversity Reserve, encompassing 1295 hectares of protected rainforest in the majestic Andes Mountains. Learn about this rich ecosystem during discussions with native guides and look for multi-hued toucans, tree-nesting kinkajous, electric-blue butterflies and hundreds of species of orchids during naturalist-led day and night trail walks and while gliding through the understory of the forest on canopy aerial gondolas.

Accommodations for one night are in the first-class Hilton Colon Hotel in Quito and two nights in the deluxe Mashpi Ecuador Lodge, located in the heart of the reserve.

The Pre-Tour Option is at additional cost. Details will be provided with your reservation confirmation.
The intimacy and personal service of a small cruise ship experience are the distinguishing characteristics of travel aboard the first-class exploration vessel SANTA CRUZ II. It is designed specifically to navigate the narrow channels, shallow bays and environmentally sensitive waters of remote archipelagos and provides the most comprehensive access possible to the region's marine and wildlife treasures. Refurbished in 2015, the air-conditioned SANTA CRUZ II features only 50 Suites and Cabins, and it offers modern amenities and facilities.

A team of onboard Ecuadorian naturalists will share their in-depth insight and knowledge about the Galápagos Islands' distinctive ecosystem during daily excursions and natural history lectures. The ship provides a glass-bottom boat to observe marine life, Zodiacs for island landings and excursions, complimentary snorkelling equipment and a nighttime stargazing program.

All accommodations are ocean-view, air-conditioned and tastefully appointed with a private bathroom with shower, a safe and a hair dryer. Cabins (15 to 18 square metres) feature one double bed convertible to two twin beds, and three Suites (30 square metres) feature one fixed double bed.

All meals, featuring international and Ecuadorian specialties, are served in single seatings in the inviting Beagle Restaurant or alfresco when conditions permit. Complimentary wine and beer are served with dinner.

The ship's public facilities include two lounges, natural history library with Internet access, bar, gift shop, observation deck, two hot tubs, fitness centre and an infirmary with a full-time physician.

With a ratio of one crew member for every 1.8 guests, the SANTA CRUZ II's staff provides professional, attentive service. The ship maintains the highest international safety and environmental standards.

Plaza de Armas is the magnificent centre of historic Cuzco, a UNESCO World Heritage site.

Machu Picchu and the Sacred Valley Post-Tour Option

Delight in this extraordinary opportunity to experience Machu Picchu, the majestic “lost city of the Incas”; the lush Sacred Valley; and the colonial and Inca traditions of Cuzco.

Perched on an awe-inspiring mountain range in the Peruvian Andes, Machu Picchu was obscured from humankind for 400 years until Yale Professor Hiram Bingham literally stumbled upon it in 1911. A century of extensive research and study still has not revealed the secrets of its purpose, its residents or its abandonment; nevertheless, this UNESCO World Heritage site has been carefully excavated and preserved.

Admire the spectacular archaeological sites of the beautiful Sacred Valley, where ancient engineering marvels, such as the fortress of Ollantaytambo, stand as lasting testimony to the powerful and far-reaching Inca Empire. Here, village craftsmen employ age-old techniques to weave intricate tapestries and sculpt colourful pottery.

In the historic Inca capital of Cuzco, a UNESCO World Heritage site, see the Inca stone fortress of Sacsayhuamán and grand Baroque- and Renaissance-style churches that provide a fascinating mix of pre-Columbian and colonial influences.
